SUCCESS

Succeed at

Understanding and

Conquering

Challenges to

Establish

Stability and

Self-Reliance

SUCCESS is a program that helps individuals & families restore their sense of self-respect, hope, and reclaim their dreams of a better life.

SUCCESS is a family development program that promotes self-reliance and a healthy interdependence with the rest of the community (family, friends, neighbors, co-workers, social, educational, spiritual, and medical providers). This in turn promotes an increased feeling of self-worth.

SUCCESS is very unique in that it is based upon the individual and/or family. It is an investment in your future.

How does **SUCCESS** work?

This program is based on the needs and wants of the household. Individuals and families establish a partnership with a Family Development Worker who will assist in developing goals that will help them become self-reliant. A written Family Development Plan will be created that identifies and builds upon a family's strengths in order to pursue and accomplish the goals set by the family.

We generally work with three short-term goals at a time. Short-term goals are goals that can be accomplished within a six month period. Long-term goals, goals that will take over six months, are encouraged and can be broken down into several short-term goals.

Examples of short-term goals (accomplished within six months) could be but are not limited to:

- ◆ Obtain a part-time job
- ◆ Obtain a full-time job
- ◆ Pay off a debt
- ◆ Obtain a GED
- ◆ Enroll in college
- ◆ Complete the first semester of college

Examples of long-term goals (accomplished outside of six months):

- ◆ Purchase a home
- ◆ Earn a college degree
- ◆ Buy a vehicle
- ◆ Pay off a loan

These are just generic examples that have been popular with past participants.

SUCCESS participants have the opportunity to attend monthly seminars. Seminars cover a wide range of interesting topics and provide learning experiences in a fun and informal environment. Participants are encouraged to share thoughts and ideas, and when funding is available are provided a cash incentive that is paid directly to their electric provider.

Past seminar topics have included:

- Vehicle Maintenance
- Stress, Emotions & Health
- Time & Stress Management
- Steps to Home Ownership
- Renter's Rights
- Shop & Bargain to Save
- Money Management
- Energy Conservation
